XXIV. MMCP and incentive payments for State Fiscal Year (SFY) 1996

- A. Sections XIX through XXIII describe payments for MMCP. MMCP Incentive, Sole Community Provider Incentive, Trauma Center Incentive, Obstetric Service Incentive, Children's Hospital Incentive, and Primary Care Incentive payments which are paid to providers on a prorated basis through June 30, 1995.
- B. MMCP and Incentive payments defined in subsection XXIV shall continue at the same prorated level through August 8, 1995.
- XXV. State Fiscal Year 1996 (SFY-96) DSH Per-Diem Rates.

Effective July 1, 1995, per-diem rates for hospitals which qualify as first or second tier shall be established based on the most recent desk reviewed 1993 cost report.

Effective Date: July 1, 1995 Approval Date: AUG 28 2001

- XXVI. In accordance with state and federal laws regarding reimbursement of inpatient and outpatient hospital services and the implementation of a Medicaid managed care system, reimbursement for state fiscal year 1996 shall be determined as follows.
 - A. State Fiscal Year 1996 Reimbursement for Inpatient and Outpatient Hospital Services

Claims for inpatient and outpatient hospital services for Missouri Medicaid eligible recipients, not enrolled in a Medicaid managed care plan such as MC+, shall continue to be reimbursed in accordance with current regulations and claims processing procedures.

Inpatient per diem rates and outpatient reimbursement percentages in effect as of June 30, 1995, shall remain in effect for state fiscal year 1996 except for hospitals which initially qualify July 1, 1995, as 1st or 2nd Tier Disproportionate Share or hospitals which previously qualified as 1st or 2nd tier and failed to requalify July 1, 1995. Per diem rates shall be adjusted to a disproportionate share or general plan level as appropriate.

A Medicaid Add-On payment based on 100% of the allocated Medicaid Shortfall and 95% of the DSH Uninsured shall be prorated over SFY 96. Hospitals which contribute through a plan approved by the Director of Health to support the State's Poison Control Center and the Primary Care Resource Initiative for Missouri (PRIMO) shall receive a Medicaid Add-On payment based on 100% of the allocated Medicaid Shortfall and 96% of the DSH Uninsured. MMCP and other incentive payments paid in accordance with sections (19) thru (24) of 13 CSR 70-15.010 shall be considered in computing the pro rata share of Medicaid Add-On and DSH Uninsured payments due for the period August 9, 1995, thru December 8, 1995.

Hospitals which qualify as 1st tier 10% Add-On DSH shall not receive the Medicaid Add-On payment, but shall continue to receive the UCACI and Safety Net payment described in sections (16) and (18).

B. Medicaid Add-Ons

Medicaid Add-Ons for Shortfall and Uninsured are based on the estimated inpatient and outpatient cost for SFY 96 less the estimated per diem and outpatient reimbursement for SFY 96.

The estimated inpatient cost for the target year is based on the desk reviewed base year cost per day (TCPD), trended thru SFY 96, and multiplied by the estimated inpatient days for SFY 96. The estimated outpatient cost is based on the base year outpatient cost trended thru SFY 96. The base year is the third prior fiscal year (i.e., The base year for SFY 96 is the FY 93 cost report.)

The estimated per diem reimbursement for SFY 96 is based on the current per diem rate multiplied by the inpatient days, within benefit limitations, estimated to be paid for SFY 96. The estimated outpatient reimbursement is based on payment at 90% of base year cost trended thru SFY 96.

An adjustment to recognize the FRA assessment not included in the desk reviewed cost per day is also included. The FRA assessment attributable to Medicaid and Uninsured is determined by multiplying the base year Medicaid and Uninsured days by the SFY 96 FRA assessment rate.

An adjustment shall also be determined for hospitals which operated a Poison Control center during the base year and which continues to operate a Poison Control Center in a Medicaid managed care region. The Add-On adjustment shall reimburse the hospital for the prorated Medicaid managed care cost in accordance with the allocation formula described in the Allocation of Medicaid Add-Ons section.

C. Allocation of Medicaid Add-Ons

Medicaid Add-Ons determined for Medicaid Shortfall and Medicaid Uninsured shall be allocated based on the estimated effect of implementation of a Medicaid managed care system (MC+) in accordance with this section. Medicaid per diem and outpatient payments, which are paid on a claim specific basis do not require an allocation.

Medicaid Add-Ons shall be multiplied by a managed care allocation factor which incorporates the estimated percentage of the hospitals Medicaid population which will remain outside a managed care system and the estimated implementation date for a managed care system. For example: If a hospital has 1) an annual Add-On payment of \$100,000, 2) 40% of their Medicaid days are related to Medicaid recipients not eligible for Medicaid managed care, and 3) the projected implementation date for managed care is 10/1/95; the prorated Medicaid Add-On is \$55,000 [(\$100,000*25%)+(\$100,000 *75%*40%)].

App AUG 28 2001

- c. 447.253 (b) (1) (ii) (C) The payment rates are adequate to assure that recipients have reasonable access, taking into account geographic location and reasonable travel time, to inpatient hospital services of adequate quality.
- 4. 447.253 (b) (2) The proposed payment rate will not exceed the upper payment limits as specified in 42 CFR 447.272:
 - a. 447.272 (a) Aggregate payments made to each group of health care facilities (hospitals, nursing facilities, and ICFs/MR) will not exceed the amount that can reasonably be estimated would have been paid for those services under Medicare payment principles.
 - b. 447.272 (b) Aggregate payments to each group of State-operated facilities (that is, hospitals, nursing facilities, and ICFs/MR) - - when considered separately - - will not exceed the amount that can reasonably be estimated would have been paid for under Medicare payment principles.

If there are no State-operated facilities, please indicate "not applicable:"

- c. 447.272 (c) Aggregate disproportionate share hospital (DSH) payments do not exceed the DSH payment limits at 42CFR 447.296 through 447.299.
- d. Section 1923 (g) _ DSH payments to individual providers will not exceed the hospital-specific DSH limits in section 1923(g) of the Act. _____
- B. <u>State Assurances.</u> The State makes the following additional assurances:
- 1. For hospitals
 - a. 447.253 (c) In determining payment when there has been a sale or transfer of the assets of a hospital, the State's methods and standards provide that payment rates can reasonably be expected not to increase in the aggregate solely as a result of changes of ownership, more than payments would increase under Medicare under 42 CFR 413.130, 413.134, 413.153 and 413.157 insofar as these sections affect payment for depreciation, interest on capital -indebtedness, return on equity)if applicable), acquisition costs for which payments were previously made to prior owners, and the recapture of depreciation.
